

CADDY ROD LOCK Strut End Bracket

- Installs with the open side of strut channel facing down allowing for objects to be quickly positioned by sliding along the channel
- Allows for the quick creation, installation, and adjustment of multi-level trapeze assemblies
- Can be used to prefabricate assemblies which can be quickly pushed onto previously installed threaded rods
- Easy "push-to-install" design allows installers to simply push the threaded rod through the mounting hole, instantly holding it in position
- Integrated adjustment nut enables fine tuning the system height up or down
- Lock nut can be finger tightened, locking the rod in place
- Works with slightly damaged threads and minor burrs on the threaded rod
